Re: MB Docket No. 04-233

To Whom It May Concern:

Under the proposed changes of expanding LPFM stations, a radio station that I support, K-LOVE, will be forced off the air. I was very upset when I heard that K-LOVE could be taken off the air. K-LOVE is always on in my home daily from morning to night. It not only gives me encouragement throughout the day but it encourages my family too. K-LOVE has become such a positive influence in my life that I have become a financial supporter.

K-LOVE is one of the few radio stations available that provide family-friendly broadcasting. I know many people in the community that would be upset if K-LOVE was no longer available. K-LOVE is so important to many that it is financially supported by listeners. I think that is evidence of the important impact K-LOVE has had on the lives of my community.

I believe K-LOVE is an important service to public interests as well. Few radio stations are available today that don't have songs endorsing criminal and immoral behavior. K-LOVE endorses positive values to listeners.

If K-LOVE becomes unavailable, the radio in our home will no longer be on. Please don't expand the services of LPFM stations.

Sincerely,
Roni Schrick
